# Featured Products

## SUPERSHADE HANGER ROD CANOPY

### Sun Control Louver Canopy

[mapes.com/supershade](http://mapes.com/supershade)

Mapes Industries SuperShade is a line of passive sun control products that can be used to manage the impact of solar gain on any building. The SuperShade hanger rod design allows it to be integrated seamlessly with Lumishade solid deck over doors. Pre-engineered for most wall conditions, Mapes SuperShade sun control products can reduce solar impact and provide economical design options for any passive solar condition. 3"x 3" "U" Channel decking also available.

### FEATURES

- Pre-engineered
- Sun Louver
- Custom Colors
- Hanger Rod / Cantilever Options
- CMU, EIFS, Metal Building Options

## RETAIL CANOPY SOLUTIONS

### Super Lumideck Hanger Rod

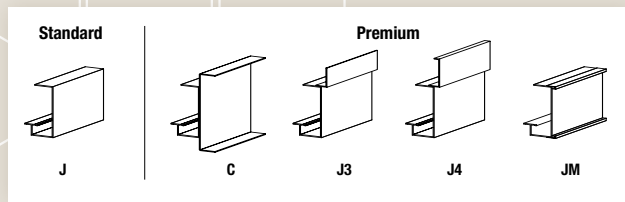

[mapes.com/superlumideck\\_hanger](http://mapes.com/superlumideck_hanger)

The Super Lumideck hanger rod canopy is an all extruded aluminum canopy designed for high load architectural applications. Optional deck styles provide a complete solution for any design requirement. Deck profiles can be combined with differing fascias to complement any design emphasis or building requirement. The all extruded design provides a solution for both high snow drift loads and hurricane force winds.

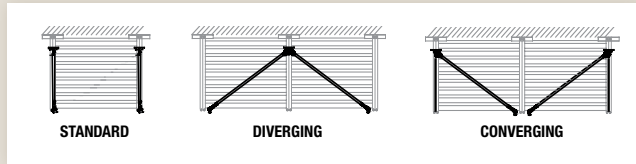

### FEATURES

- Pre-engineered
- All Extruded
- Color Options
- High Load
- Deck Options - Flat Soffit
- Fascia / Escutcheon Options
- Internal Drainage
